PURPOSE

These tests measure change of direction, linear speed and turning with the ball. The gap between with-ball and without-ball times is the dribble deficit. Closer times show more skill. Speed still counts. Best is fast and close.

WHERE IT IS STORED

Video

Stays on the coach’s phone (Photos or Files). The app uses the clip to time the run. It does not keep a copy of the film. Keep the original on the phone.

Times and analysis

Saved in the Raging Bulls app when Save test is tapped. They remain for the season.

Professional PDF

Coach desk !’ Perf !’ Dribble deficit report !’ Print / PDF. Club crest, squad tab

RECORDING SETUP

1. Phone on a stand. Do not hold it. Movement spoils the time.
2. Side-on to the drill so the start line and the finish are both in shot.
3. Use 0.5–0.6× ultra-wide zoom so the full course fits.
4. Keep still. Nobody walk in front of the lens.
5. One run per clip. GO or whistle at the start. Stop at the finish.
6. Film in the app, or upload a clip from the phone. The clip length is the time.

SMARTPHONE CAMERA

Rear camera. Ultra-wide 0.5×. Video 1080p at 30 fps. Turn off HDR, cinematic, night mode and slow-mo. Lock AE/AF if available. Grid on to line up start and finish.

File: MP4 or MOV · Codec: H.264 · 1080p or 720p · 30 fps · no slow-mo · no HDR · under 3 minutes.

iPhone: Camera !’ Video !’ 1080p HD at 30. Pinch to 0.5×. If uploads fail, Sett
Compatible.

Android: Camera !’ Video !’ 1080p 30. Choose 0.5× or Ultra-wide. Turn off HDR
the wide shot.

THE TESTS

1. CHANGE OF DIRECTION · 50M ZIGZAG

GO or whistle. Stop when the player goes through the end cones. One run without the ball, then one with the ball.

2. LINEAR SPEED · 30M

GO or whistle. Straight line without the ball first. With the ball they may pass from 20m. Stop when the ball crosses the 30m mark.

3. TURNING WITH THE BALL · 3M SQUARE

Start on the start line, ball at feet. Run 3m — turn. Back 3m — turn. Out 3m — last turn. Sprint back. Stop when the foot is on the ball on the start line.

SCORING

Difference = with ball minus without ball (dribble deficit). Rankings use speed without the ball plus the size of the gap. Fast and close together is the best result.

Bonus points through the season: +5 for taking the test, 10 / 6 / 3 for top three on zigzag, 30m and turns, +5 if they improve next time.

HOW TO RUN A SESSION

Coach desk ⁉ unlock ⁉ Perf. Pick the player and the date. Film or Upload for Open Dribble deficit report and Print / PDF for parents or staff.

CONFIDENTIAL

Prepared for Cherrybrook FC Raging Bulls U12s by Brian Lee (manager), Connor Lee (head coach) and Gary Owen (assistant).
